

2019

PROFESSIONAL SUPPLIER FOR VARIOUS MARKETS
AUTOMOTIVE | INDUSTRIAL | OFFSHORE | AGRICULTURE

HISTORY

2001

We changed our name to "QSP Products".

2007

First and still the only Dutch company with FIA homologation. Also our first product catalog came out, it had 12 pages.

2003

Expanding our activities and started with construction of workshop, 4x4 Dyno and large showroom.

2009

2011

Keep expanding and bought the neighbours building for extra storage, now we have 4500m².

1999

Company moved to another location, now we have 450m².

2005

Due to the large growth we are forced to move to another location, now we have 1250m².

2019

Serving customers throughout the whole world in various markets.

1983

Founded as "Allied Racing Supplies".

RACING

OUR MARKETS

QSP Products has traditionally been a manufacturer and supplier for only racing related products.

Nowadays, our products are used in more and more different markets than only the racing scene. We supply customers who are involved in the offshore, agriculture, industrial and motor cycle industry. Think about air or cooling solutions, oil and fuel systems, electrical components, CNC machined products from aluminum or steel, and many more.

We are an openminded company and we are constantly looking for new or other opportunities.

Please contact us with your demands We would be more than happy to meet you in your requests.

DRIFTING

RALLYING

WHY CHOOSE US?

Experience, quality, large stock and more.

Experience

As a company we have been trading since 1983 and active with QSP Products since 1999. Because of our experience in the market and knowledge from products we can manage, supply and support you to make your project a success!

We listen

We listen, we discuss, we advise. This sounds obvious but we listen to the demands and the request from the market and our appreciated customers. In this way we try to anticipate constantly to improve our products and service better and faster.

Large stock & quick deliveries

We are able to handle your requests and orders very quickly, due the fact that we store our products in a warehouse of 3000m². Most of time we have 95% of our products that we offer on stock.

Qualified personnel

In order to serve and advice our customers we offer all our employees various opportunities to develop themselves. The entire team behind QSP Products has expertise, and know what they are talking about.

Affordable pricing

In every case we try to have the best products for the right prices. On our website you will always find the most current price and offers for our products.

QSP PRODUCTS

Become part of our QSP family.

Global dealer network

This moment QSP Products is represented in more than 20 countries. Our appreciated dealers will help you to deliver the best products and give support as much as possible. We are always looking for partners who wants to sell QSP Products in their country as an dealer or distributor.

24/7 ordering system

On our website we have a separate dealer section which makes it possible to place orders and requests at any time you want.

Diversity of products

We extend our range monthly with new and interesting items. We offer a wide product range with the focus on automotive, offshore, industrial and agricultural market.

The Autosport COMPANY B.V.

The Autosport Company is one of the leading suppliers in Benelux of Race, Rally, Autocross, Drift, Trackday, Dakar, Karting and sporty street use equipment. They represent various brands like QSP Products, OMP, Powerflex, Stilo, Winmax, Spal and many more.

The Autosport Company is also equipped with a high tech in-house revision department, 3D alignment systems and 4x4 dyno.

THE COMPLETE COMPANY 4500m² MORE THAN JUST PARTS

QSP Products is a company that is specialized in different divisions, like Automotive, Industrial, Offshore and Agriculture sectors. We supply various universal products for these markets.

Expertise, flexibility and large stock are some of our strengths to serve our customer quickly with the right information and products.

TAC

ACADEMY

THE AUTOSPORT COMPANY

TAC Academy offers various courses, training courses and workshops. The main subject are motorsport based courses. Besides of that they offer also various workshops and courses to car detailers, body shops and engineers that are working in universal workshops.

Most lessons are practical orientated due the fact that there is a 1200m² training area fully equipped with all needed parts and tools to train.

YOUR PERFORMANCE IS OUR BUSINESS!

 **Adam's**
World

Adam's World is with more than 30.000 products one of the big players of scale models, books, lithographs, posters and more. All products are related to mobility and specialized in car and motor sport. 

Adam's World is a real paradise for the collector and enthusiast. The sales is going worldwide, but there is also a 850m² showroom were customers can view the complete collection.

NOVELTIES 2019

CUSTOM MADE SILICONE HOSES

We offer the possibility to produce bespoke hoses according to your drawing or model. In the past we offered this service only for long term business relations who had special projects, or requests. But from now on we can offer it in public. We did many projects for truck manufacturers, racing car manufacturers and industrial companies.

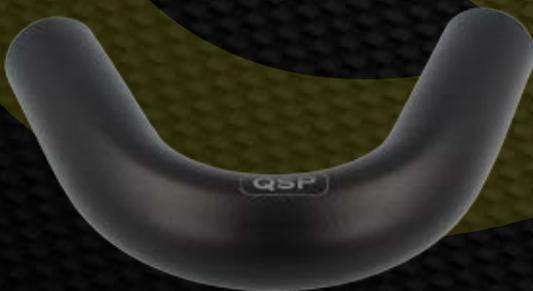

More information on page 14.

EXHAUST V-BAND CLAMPS

With these V-band clamps you can easily connect your exhaust pipes together. You'll need to weld the flanges on each end of the pipe. The V-band clamp will keep the flanges tight to each other. The clamps are sold as complete set or as separate parts.

More information on page 38.

ALUMINUM PIPING - BLACK SERIES

From now on we also deliver the complete aluminum piping range in anodized black color. A very nice matt finish which gives your project style and class.

More information on page 42 till 46.

CRIMP FITTINGS

We are proud to introduce our crimp fittings in this new brochure. We have the crimp fitting product range available for the rubber core hoses with stainless steel and nylon braid, but also for the Teflon PTFE hoses.

We offer the crimp fittings in black anodized aluminum and in stainless steel.

More information on page 61, 70 and 74.

NOVELTIES 2019

FUEL AND OIL FITTINGS

There are many new models and sizes added to the fuel and oil fitting range to provide you more solutions to connect your fluid system. These fittings are suitable for fuel, air, water and lubricant.

The new products are shown in the Hoses & Fittings section on page 54 till 98.

ALUMINUM OIL DRAIN FLANGES

We introduce three new oil drain flanges, suitable for many turbo applications. They are sealed by an O-ring to prevent any leaking. Two models are machined with inner threading to give you the opportunity to change the AN connection to your demands.

More information on page 99.

FUEL PRESSURE REGULATORS

There are two new models of fuel pressure regulators. The first is suitable for high horse power cars with EFI. The other model is suitable for low pressure carburetor applications. Both models are made from billet aluminum and machined with the highest precision.

More information on page 122.

WATERPROOF SWITCHES

Fully waterproof toggle switches available in two models. The first model is an on-off version, the other one is an on-off-on version. A very handy switch for wet environments.

More information on page 153.

NOVELTIES 2019

6 VOLT LOW PRESSURE FUEL PUMP

Due the fact that the old timer business is growing we decided to develop a 6V low pressure fuel pump. This pump is supplied with all components and bracket to mount the pump quickly and easily.

More information on page 117.

TURBO GUARD

This turbo guard comes in very handy when there is insufficient space to mount an air filter on your vehicle. With this turbo guard you still have the full air flow and takes minimum space. The t-bolt clamp is supplied with every turbo guard.

More information on page 290.

FIA APPROVED ENDURANCE HARNESS

We have homologated a new endurance FIA harness, which is very convenient when you are racing with more teammates. If there is a driver change you can quickly adjust the length of the lap straps next to the buckle.

More information on page 224.

PROFESSIONAL STEEL SEAT BRACKET

We decided to introduce this professional seat bracket also in steel to reduce the costs, but without losing all the features of this model.

More information on page 271..

NOVELTIES 2019

TOOL BAG

Very handy tool bag to take with you in your vehicle. This tool bag roll has 40 storage compartments for all your tools, and is supplied with a strong closing clip.

More information on page 282.

WIDE ANGLE CONVEX MIRROR

380mm (15") wide angle convex mirror for panoramic view. With this mirror you will have a very wide viewing area for maximum visibility. Provided with real glass to give you ultra-clear images.

More information on page 283.

HIGH FLOW AIR FILTERS

A complete new product range of high flow air filters. We now supply all filter with various connection rings to be as flexible as possible

More information on page 289.

RACING GLOVE "400"

It was time to introduce a new modern design racing glove. We proudly present the new pre-curved "400" racing glove, made from stretch fabric, external seams and silicone grip inserts.

More information on page 294

Silicone Hoses

 Silicone slangen zijn tegenwoordig niet meer weg te denken in de markten automotive, industrie, agricultuur en offshore. De silicone slangen worden veelvuldig gebruikt om bijvoorbeeld oude rubberen slangen te vervangen, of om een nieuw koel- en luchtsysteem aan te sluiten. Het grote voordeel van een silicone slang ten opzichte van de rubberen slang is dat de silicone slang beter bestandig zijn tegen vloeistoffen, ozon invloeden, temperaturen en drukverschillen. Tevens hebben de silicone slangen van QSP Products de eigenschap dat deze niet uitdrogen of hard worden.

De silicone slangen worden veelal toegepast als koelwater slangen, luchtslangen, kachelslangen, turbo slangen, inlaat slangen, ontluchtingslangen, vacuüm slangen etc. Er zijn tal van universele toepassingen te bedenken waarin onze silicone slangen gebruikt kunnen worden. Uiteraard kunt u contact met ons opnemen als u twijfelt over uw specifieke toepassing.

Wij beschikken over een zeer grote voorraad waaruit wij leveren. Doorgaans zijn er meer dan 18.000 silicone slangen en toebehoren direct uit voorraad beschikbaar. De kleuren die wij standaard op voorraad houden zijn blauw en zwart.

 Nowadays silicone hoses are very common in the automotive and racing scene, but also in the markets offshore, industries, and agriculture. The silicone hoses are widely used to replace the old rubber hoses or to connect / replace the current cooling or air system. The great advantage of a silicone hose in relation to the rubber hose is that the silicone hose is better resistant to liquids, ozone influences, temperatures and pressure differences. Also the service life is much longer compared to a rubber hose. In addition, the silicone hoses have the characteristic that it does not dry out or become hard.

The silicone hoses are often used as coolant hoses, air hoses, heater hoses, turbocharger hoses, inlet hoses, breather hoses, vacuum hoses etc. You can contact us if you have any doubts about your specific application.

We deliver from our large stock. Generally, there are more than 18,000 silicone hoses and accessories directly available from stock. The whole product range is available in the colors black and blue.

Silicone Hoses

REMARK

- * The leg length of all bends is minimal 150mm, like shown on the image
- * The length of couplers is minimal 89mm.
- * All diameters that are shown for the silicone hose products are inner dimensions
- * All diameters that are shown from the aluminum items are outer dimensions

Example:

You need to have a 51 mm silicone coupler (I.D.) to connect a 51 mm alloy pipe (O.D.) to it.

Silicone hose specifications

Material	Silicone VMQ (Vinyl Methyl)	
Layer material	Polyester	
Wall thickness	Between 4 and 5mm	
Qty layers	Min. 3 layers (bigger sizes have 4 or more layers)	
Operating temp.	-60°C - +180°C	
Hardness	65 - 75 shore A	
Tensile strength	6.0MPa	
Elongation	Min. 200% Elongation	
Working pressure:	6-10 mm	10 bar
	11-18 mm	7 bar
	19 - 28mm	6 bar
	29 - 35mm	4 bar
	36 - 44mm	3 bar
	45 - 55mm	2 bar
	56 - 65mm	1,5 bar
	66 - 80mm	1,5 bar
	81 - 90mm	1 bar
Burst pressure:	6 - 10mm	18 bar
	11 - 18mm	15,5 bar
	19 - 28mm	11,5 bar
	29 - 35mm	8,9 bar
	36 - 44mm	7,4 bar
	45 - 55mm	6,1 bar
	56 - 65mm	5 bar
	66 - 80mm	4 bar
	81 - 90mm	2,9 bar
91 - 102mm	2 bar	

No vacuum load possible above hoses with bigger I.D. then 30mm

Silicone Hoses

Custom made silicone hoses

Speciale silicone slangen:

Voor QSP Products is het mogelijk om in relatief korte tijd op maat gemaakte siliconen slangen te produceren, geheel naar uw wensen. Denk bijvoorbeeld aan diverse bochten in een slang, diameter verloop van begin tot einde, een slang met een speciale aftakking of het produceren in diverse kleuren.

Hoe gaat dit in zijn werk

- U levert ons een 3D tekening aan (STEP file of CAD tekening) of een reeds bestaande slang die gereproduceerd moet worden. Daarbij vermeldt u de gewenste aantallen van de slang of slangensets en de gewenste kleur van de slang.
- Wij gaan aan de slag met het berekenen van de malkosten en de prijs van de slangen en zullen u een passende aanbieding bezorgen.

Doordat er mallen gemaakt dienen te worden alvorens er geproduceerd kan worden loont het vaak niet om één enkele slang te produceren.

Special silicone hoses:

For QSP Products is it possible to develop, in reasonable short time, custom shaped silicone hoses from a drawing or model. We can produce according your demand. Think about special bends, different connections on a hose, or silicone hoses in different colors. Basically all is possible.

Step by step

- You can send us a 3D drawing (STEP file or CAD drawing) or an existing hose that must be reproduced. Along with this we need to know the quantities of the hose or hose set and the requested color.
- We will offer you a price for producing the tooling and the bespoke hoses.

Due the fact that we have to produce molds first before we can produce the silicone hoses, there is no possibility to produce one or two hoses.

Silicone Hoses

Car hoses

Custom made silicone hoses with a historical matt red finish. We have produced these hoses for a motorsport company who is reproducing the old Group 4 Audi Quattro rally car. All the old hoses are not available anymore. There is where QSP Products jumps in.

Truck hoses

Custom made silicone hoses produced for a truck manufacturer in The Netherlands. The hoses have a length of 152cm and inner diameter of 76mm.

Aggregate hoses

Custom made silicone hoses produced for an aggregate manufacturer who is operating in whole Europe.

Sidecar

Custom made silicone hoses made for a manufacturer of sidecars. This hose is a reducing version with two bends in the design. Used as induction hose.

V-band Clamps SS Material (SS304)

V-band klemmen voor het koppelen van buizen

Met deze RVS V-band klemmen kunt u eenvoudig twee buizen aan elkaar koppelen door het lassen van de flenzen op beide kanten van de buis. De klem houdt de twee flenzen op zijn plaats. De klemmen en flenzen zijn zowel als set als los te bestellen.

V-band clamps for connecting your tubes

With these V-band clamps you can easily connect your exhaust pipes together. You'll need to weld the flanges on each end of the pipe. The V-band clamp will keep the flanges tight to each other. The clamps are sold as complete set or as separate parts.

V-band clamp set

QHKVF-4.5	4.5	114mm	€ 55,00
QHKVF-5.0	5.0	125mm	€ 59,00

Male / Female versie

De flenzen zijn gemaakt in een male/female variant zodat de passing van de twee flenzen naadloos op elkaar aansluiten.

Male / Female connection

All flanges are manufactured with a male/ female shape connection for optimal fitment.

Alloy pipings

TOEPASSING ALUMINIUM BUIZEN, BOCHTEN EN KOPPELSTUKKEN

De aluminium buizen, bochten en koppelstukken worden veelal toegepast om de silicone slangen aan elkaar te verbinden. De maten van alle aluminium producten zijn buitenmaten. U kunt dus met een aluminium koppelstuk van 32mm (uitwendig) twee silicone slangen van 32mm aan elkaar verbinden. De beste en veiligste verbinding krijgt u d.m.v. een fels rand aan het einde van de aluminium buis of bocht te maken. Deze fels randen zitten al standaard op de aluminium koppelstukken. Op de langere buizen en bochten zitten de fels randen nog niet, aangezien deze meestal eerst op maat wordt gezaagd. De wanddikte van de aluminium buizen zijn minimaal 1,5mm.

De aluminium buizen zijn van lasbare kwaliteit.

APPLICATION ALUMINUM PIPES, BENDS AND COUPLERS

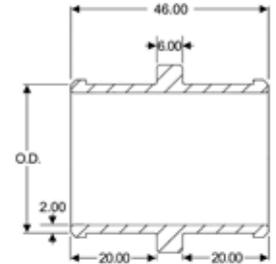

The aluminum tubes, bends and couplers are often used to connect the silicone hoses. The sizes of all aluminum items are outer dimensions. This means that you can make a connection between two silicone hoses with ID 32mm with an aluminum coupler of 32mm (OD). The best and safest connection is to have a beaded edge on the aluminum part. This way the hose clamp will remain in place. All couplers are supplied with this beaded edge. All other parts are without, cause of the fact that the pipe will be mostly cut on the right length first. The wall thickness of the aluminum parts are at least 1,5mm.

All alloy pipes, bends and couplers can be welded.

Universal Turntool

**Create beaded ends
yourself with this
handy tool!**

Turntool

 Handig apparaat om randen aan de aluminium stukken te draaien. Geschikt vanaf 16mm diameter.

 Handy tool to make beaded ends on alloy tubes. Smallest diameter: 16mm.

 Geschicktes Werkzeuge um eine Sicke auf einem Alurohr herzustellen, ab 16mm.

QTURNTOOL: € 275,00

Self-sealing fittings

Each fitting is supplied in a kit containing:

- A hole punch
- A self-sealing insert
- A self sealing washer
- A threaded hose tail or nut
- An O-ring

(For use on hard materials)

A range of self-sealing hose take off's to enable a 'T' into hard or soft materials including: silicone/rubber hoses, air boxes, plastic/aluminum pipes.

3/4"	14	12
1"	11-1/2	16
1-1/4"	11-1/2	20

Assembly instructions

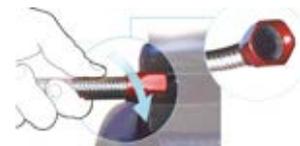

Step 1

Bind masking tape tightly around the hose at the required length and cut through using a fine tooth saw blade. Leave the tape on both ends so that it retains the braid. Clean any debris from both the cut ends and inside the hose.

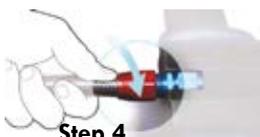

Step 2

The fitting consist of 2 pieces

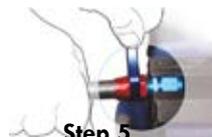

Step 3

Bind the socket in a smooth jaw vice and feed one end of the hose into the socket by turning clockwise and pushing until the hose finishes just behind the socket threads.

Step 4

Holding the main fitting body in the vice, lubricate the thread and push the hose and socket over the nipple end and start to thread the socket onto the fitting by hand.

Step 5

Finish tightening the socket onto the fitting using a good quality wrench until the socket is one full turn from the back of the fitting hex.

Step 6

Pressure test.

Hoses & Fittings

Stainless Steel Braided Hose

Double braided stainless hose that uses the highest quality stainless wire available. Constructed with a stainless steel outer braid that resists abrasion and corrosion. For use with fuel systems, methanol, oil, lubricants, coolant systems and vacuum applications.

e85 RESISTANT

Operating Temperature: -40°C - 150°C

Two layers of stainless steel!

Part No.	Description	Size (AN)	Inner (MM)	Outer (mm)	Operating PSI/BAR	Price (p/M)

Nylon Braided Lightweight Hose

Special manufactured hose for performance and reducing the weight in the vehicle. A flexible stainless steel inner core for superior strength embedded in the Chlorinated Polyethylene (CPE) synthetic rubber liner. Constructed with a braided nylon outer shield for abrasion resistance. For use with fuel systems, methanol, oil, lubricants, coolant systems and vacuum applications.

e85 RESISTANT

Operating Temperature: -40°C ~ 150°C

Strong stainless steel core with nylon protection for abrasion resistance

Push On Hose

Push-lock hose is designed for the use with the special-made push-on fittings. Push On Hose is suitable for coolants, oil, air and methanol fluids. It's recommended to use an extra hoseclamp when temperatures exceed 70°C.

Temperature range: -40°C ~ 100°C

Hoses & Fittings

Teflon (PTFE) Stainless steel braided hose

Outer cover from stainless steel braiding, and Teflon (PTFE) inner tube, compatible with any brake fluid, clutch fluids or fuel (E85). This hose is mostly used for making brakelines and oil lines. The bigger sizes like D06 and D08 are also often used for fuel systems, especially cars who drive on E85 fuel.

Teflon (PTFE) Stainless steel braided hose with coating

Outer cover from stainless steel braiding with transparent PVC coating for optimal protection, and Teflon (PTFE) inner tube, compatible with any brake fluid, clutch fluids or fuel (E85). This hose is mostly used for making brakelines and oil lines. The bigger sizes like D06 and D08 are also often used for fuel systems, especially cars who drive on E85 fuel.

Hoses & Fittings

Fitting instructions for teflon (PTFE) hose

Step 1.

Bind masking tape tightly around the hose at the required length, and cut through using a fine tooth saw blade or cut-off wheel, leaving the tape on both ends so that it retains the braid. Clean any debris.

Step 2.

Slide the cap over the hose. Then flair out the SS braiding a bit, so that the olive can be pushed over the teflon and under the SS braiding. DON'T CUT THE SS BRAIDING

Step 3.

Screw the other half of the brake fitting into each other. Finished for pressure test.

Aluminum extruded coil ideal for making hardlines, brakelines, clutch lines etc. Available in anodized gloss black for an extra special look, in lengths of 2 and 4 meters. Also suitable for E85 fuel. Natural aluminum colour on request.

Fitting instructions for aluminum hardline Option A

Step 1.

Cut the alloy tube nice and properly.

Step 2.

Slide the cap over the alloy tube, and push the olive around the tube.

Step 3.

Turn the two halves in each other. Finished for pressure test.

Fitting instructions for aluminum hardline Option B

Step 1.

Cut the alloy tube nice and properly, and make a small flair on the tube.

Step 2.

Slide the tube sleeve to the end of the tube.

Step 3.

Turn the two halves in each other. Finished for pressure test.

Hoses & Fittings

Top-class hose has a woven Kevlar braid with a smooth Teflon tube for increased flow and convoluted outside for more flexibility. This hose is 60% lighter than our regular SS braided hose. For use with fuel systems, methanol, oil, lubricants, coolant systems and vacuum applications.

Operating Temperature: -40°C - 210°C

Ultra light PTFE hose (Kevlar braided)

Part No.	Description	Size (AN)	Inner (mm)	Outer (mm)	PSI/BAR	Min. bend radius	Price (p/M)
QGSSKEVLAR04	Ultra light PTFE hose (kevlar)	D04	7,0	9,6	1320/90	24mm	€ 69,00
QGSSKEVLAR06	Ultra light PTFE hose (kevlar)	D06	10,0	13,7	1200/80	25mm	€ 69,50
QGSSKEVLAR08	Ultra light PTFE hose (kevlar)	D08	13,3	17,2	1050/70	44mm	€ 99,65
QGSSKEVLAR10	Ultra light PTFE hose (kevlar)	D10	16,5	21,1	960/65	56mm	€ 132,00
QGSSKEVLAR12*	Ultra light PTFE hose (kevlar)	D12	19,9	24,6	880/60	60mm	€ 145,90
QGSSKEVLAR16*	Ultra light PTFE hose (kevlar)	D16	26,1	31,5	740/50	100mm	€ 193,85

*Available on request

Fitting instructions

 Zaag de slang op de juiste lengte met een dunne slijpschijf. Schuif vervolgens eerst de moer over de slang heen. Schuif vervolgens het aluminium busje over de slang (over de mantel). Dit busje wordt bij iedere koppeling geleverd. Vervolgens drukt u de koppeling in de teflon binnenleiding. Houdt deze aangedrukt en draai vervolgens de moer op de koppeling.

 Cut the hose on the right length with a sharp saw or a thin grinding disk. First, push the nut over the kevlar hose. Then mount the olive, which is included with the fitting, on the outside of the hose (over the kevlar). Then push the hose-end inside the teflon inner tube. Keep this under pressure while you screw the nut onto the fitting.

Flair Tool

 Eenvoudige "Flair Tool" om een trompet aan de leiding te maken. Geschikt voor leidingmaat 3mm t/m 19mm (1/8" t/m 3/4")

 Usefull flair tool, to make a trumpet shape on the hardline. Suitable for tubing from 3mm t/m 19mm (1/8" t/m 3/4").

 Für die Anfertigung van rohrleitungen für bremsen oder Aluminium leitungen. Geeignet für 3mm bis 19mm rohr (1/8" t/m 3/4").

QTOOL2502: € 180,00

Special Tools

Aluminum multi tool

 **Met dit gereedschap haalt u uw vingers nooit meer open!**

Handig gereedschap om de olijven over de teflon mantel te monteren en onder de RVS buitenmantel. Deze tool is multifunctioneel omdat deze te gebruiken is voor leidingen D03, D04, D06 en D08! Het enige wat u hoeft te doen is de moer op het handvat los te draaien en de juiste maat te kiezen. Hoogwaardig stuk gereedschap gemaakt van een aluminium handvat en RVS geleide pin.

 **With this tool you prevent yourself from bleeding fingers.**

A very convenient tool to install the olives onto the PTFE / Teflon hoses. This tool is multifunctional as it can be used for lines D03, D04, D06 and D08! All you need to do is loosen the nut on the handle and choose the right size. Quality tool made of an aluminum handle and stainless steel led pin.

QTOOL4402: € 39,95

Tube Straightener

 Aluminium pijpen buig apparaat, geschikt voor leiding maat 4,8mm t/m 12,7mm (3/16" ~ 1/2")

 Heavy duty tool for bending pipe. suitable for tubing from 4,8mm till 12,7mm (3/16" ~ 1/2")

 Handliches Gerät zum Biegen von Leitungen, mit aussen diam. 4,8mm bis 12,7mm (3/16" ~ 1/2")

QBEND2: € 190,00

Tube Bender

 Aluminium pijpen buig apparaat, geschikt voor leiding maat 1,6mm t/m 6,4mm (1/16" ~ 1/4")

 Handy tool for bending pipe. suitable for tubing from 1,6mm till 6,4mm (1/16" ~ 1/4")

 Handliches Gerät zum Biegen von Leitungen, mit aussen diam. 1,6mm bis 6,4mm (1/16" ~ 1/4")

QBEND1: € 80,00

Special Tools

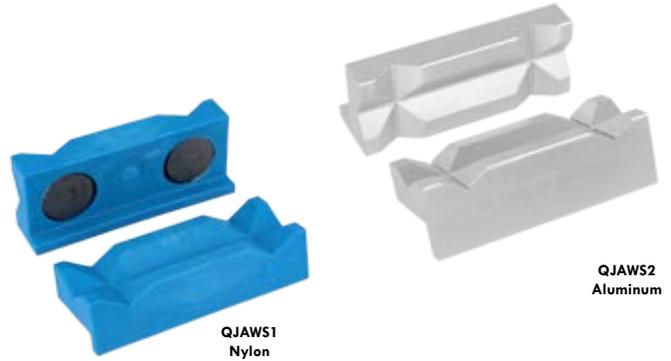

Hose Fitting Tool

-  Handig apparaat om wartels op de slang te monteren. Geschikt voor D04 t/m D12 slang.
-  Handy hose installation kit. Suitable for D04 till D12 hose.
-  Geschicktes Werkzeug zum montieren von Schlauchhulzen auf die Schlauch. Fur Schlauch D04 - D12.

QG505 SET: € 245,00

Vice Jaws

QJAWS1
Nylon

QJAWS2
Aluminum

-  Bankschroef klemmen, om makkelijk en zonder krassen fittings/wartel te monteren.
-  Specially designed to hold braided hose nuts and end fittings in place without damaging.
-  Anschluss- und Leutingsmontage ohne Kratzer.

QJAWS1: € 27,50

QJAWS2: € 24,75

Brake line Tool

-  Remleiding gereedschap voor gebruik in de bankschroef. Met dit gereedschap kunnen enkele en dubbele flairs op de remleiding gemaakt worden. Erg makkelijk in gebruik.
-  Brake line tool for single and double flairs, very easy to use.
-  Bördelgerät für die anfertigung von Bremsrohrleitungen mit Konkav- oder Konvex-Konus Unkomplizierte Montage

QTOOL3601: € 147,42

Hose mounting tool set

-  Montage set. Handige set voor het monteren van slangnippels .
-  Hose installation kit. Handy hose installation kit
-  Schlauchen Montage Satz. Unkomplizierte Montage von Schlauch Adapter auf SS Ummantelte Hose und Lightweight Schlauch. (Nicht geeignet für PTFE Schlauch)

Brake products

Universal hydraulic handbrake kit

 Professioneel handremstelsel, geschikt voor alle auto's die voorzien zijn van een kruislings gescheiden remsysteem. De handrem kan zowel horizontaal als verticaal gemonteerd worden. Lengte van hendel kan worden aangepast naar diverse standen dmv draaibare tussenstukken. (zie afbeelding).

Wordt geleverd inclusief cilinder (2x ingang, 2x uitgang = 4x M10x1).

 Professional handbrake system, used for original Group N cars with original brake system. The handbrake can be mounted in a horizontally and vertically position. The Length of the lever can be adjusted by screwing on and off the separate pieces (see picture).

This system is delivered including cylinder. (2x inlet, 2x outlet --> 4x M10x1)

 Professioneel universales Fly off-Handbremse, Komplett mit Tandemzylinder. Hebel kann in horizontaler oder vertikaler Position montiert werden. Geeignet für Fahrzeuge mit einem Quer Bremssystem.

Die Griffänge kann auf verschiedene Längen eingestellst werden (sie Bild).

Adjustable lever length

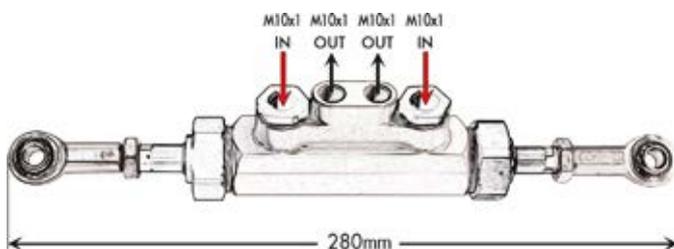

Close-up tandemcylinder

Can be mounted horizontally and vertically

QHANDBRAKE 5: € 379,00

Tandem cylinder

 Gp.N handremcilinder, voorzien van uniballs, geschikt voor kruislinks gescheiden remsysteem.

 Gp N Tandem cylinder, complete with uniballs

 Gruppe N Tandemzylinder complet mit uniballs.

QHANDBRAKE 6: € 289,00

Brake products

Universal handbrake

Unlocked

Locked

Universal vertical handbrake, steel.

Supplied with a special quick connection to easily take off the cylinder from the handbrake system.
Lever length: 400mm. Brake cylinder to be ordered separately (see page 109).

QHANDBRAKE 3X: € 59,00

Universal handbrake

QHANDBRAKE SPACER

Extention - sold separately

-  Universele aluminium handrem, 300mm. Horizontaal en verticaal te monteren!
-  Universal alloy handbrake, 300mm. Can be placed straight or upright position!
-  Handbremse von Aluminium, 300mm. Horizontaler oder vertikaler Position!

QHANDBRAKE 3: € 91,00

QHANDBRAKE SPACER: € 23,75 (200mm extention)

QHANDBRAKE 3

Brake products

Remote Master Cylinder

Used mostly for pedalboxes and handbrake applications.
Available in 0.625 - 0.7 - 0.75 bore sizes.

- Steel internal parts
- Double lip sealed piston
- The bore is micron plated finish

Outlet port: 3/8 UNF (=D03/AN3)

Inlet port: 7/16 UNF (=D04/AN4)

Connection: 5/16UNF

Bore 0.625 - Art.nr: QCYL 0.625: € 54,00

Bore 0.70 - Art.nr: QCYL 0.70: € 54,00

Bore 0.75 - Art.nr: QCYL 0.75: € 54,00

Bias valve - screw

Brake bias valve with reducing range from 0 - 60%. Easily to adjust the brake pressure by placing the valve in the line to the rear brakes.

- 100 - 1000+ PSI range
- Precise adjustment
- From billet aluminum
- Anti corrosive internals
- Connection in/out M10x1

QVALVE 3: € 55,50

Bias valve - lever

Brake bias valve with reducing range from 0 - 60%. Easily to adjust in cockpit by having 5 lever positions.

- 100 - 1000+ PSI range
- Precise adjustment by 5 positions
- From billet aluminum
- Anti corrosive internals
- Accurate and quick response
- Connection in/out M10x1

QVALVE 2: € 67,00

High = IN | Low = OUT

NEW!

Dual Bias Valve

Dual line billet proportioning valve with adjustable lever, often used on Gr. N cars and O.E cars which have separate brake lines going to the rear and front of the car.

2x M10x1 inlet
2x M10x1 outlet

- 100 - 1000+ PSI range
- Precise adjustment
- From billet aluminum
- Anti corrosive internals

QVALVE 4: € 225,00

Injection Pump 909

160LPH @ 5 BAR
For injection cars only - competition use

Technical specs:

- 12 Volt connection, - 260L per hour Free Flow
- 160L per hour at 5 BAR, - Current: 9 Amp at 5 BAR
- Max. pressure 11,2 BAR
- Inlet: 12mm hose connection
- Outlet: Banjo 12mm / M12x1,5 female

QP 580 909: € 69,00

Injection Pump 404

180LPH @ 5 BAR
For injection cars only - competition use

Technical specs:

- 12 Volt connection, - 290L per hour Free Flow
- 180L per hour at 5 BAR,
- Current: 11 Amp at 5 BAR
- Max. pressure 11,2 BAR
- Inlet: M14x1,5 female
- Outlet: Banjo 12mm / M12x1,5 female

QP 580 404: € 81,00

Ultraflow Injection Pump 044

305LPH @ 5 BAR- For injection cars only - competition use. Replacement for Bosch® 044

Technical specs:

- 12 Volt connection - 320L per hour free flow
- 305L per hour @ 5 BAR
- Ethanol compatible
- Inlet: M18x1,5 female
- Outlet: Banjo 12mm / M12x1,5 female

Kit includes:

- Electrical terminals
- Boot covers
- Outlet adapter

QP 580 044: € 129,00

Fuel products

High Flow In-Tank Pump

160 LPH

High capacity in-tank injection pump, suitable for E85 fuel and normal fuel. This pump is supplied with filter and wiring.

Technical specs:

- 160 L /hour at 4 BAR, - 12V,
- filter and wires included.

QP IT007 € 74,50

Cylindrical Fuel Pump

Low pressure applications

For competition use, cars with carburetors. Unions and fittings must be ordered separate. Pump must be mounted in an upright position.

Technical specs:

- 120L /hour Free Flow, - 12V connection,
- 1/8 NPT female connection

QP 480532 € 55,00

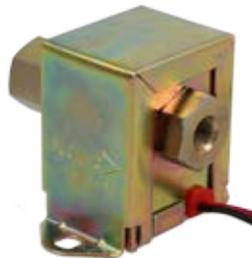

Fuel Pump Square

Low pressure applications

For competition use, cars with carburetors. Unions and fittings must be ordered separate.

Technical specs:

- 90L /hour Free Flow, - 12V connection,
- filter included, connection 1/8 NPT female

QP 40107: € 36,50

NEW! Fuel Pump 6 Volts

Low pressure applications

External fuel pump, designed for 6 volts carbureted applications. This fuel pump is supplied including 2x 1/8 NPT fittings with 8mm barb, mounting bracket, fuel filter and small accessories.

Technical specs:

- Free flow: 121 LPH (32 US gallon)
- Maximum pressure: 0.31 BAR (4.5PSI)
- Connection: 1/8 NPT female

QP 6VLP: € 33,02

Fuel products

Injection Pump Fitting

8mm banjo connection - M12 banjo
--> Suitable for injection pump models QP 580 909 + QP 580 404 + QP 580 044

QPNIP INJ: € 7,95

Straight unions

Low pressure pumps

Part No.	Size	Price
QMZ S-1408	8mm - 1/4 NPT	€ 2,85
QMZ S-1410	10mm - 1/4 NPT	€ 2,85

QMZ S-1810	10mm - 1/8 NPT	€ 1,95

90° unions

Low pressure pumps

Part No.	Size	Price
QMZ E-1408	8mm - 1/4 NPT	€ 3,95
QMZ E-1410	10mm - 1/4 NPT	€ 3,95
QMZ E-1808	8mm - 1/8 NPT	€ 3,95
QMZ E-1810	10mm - 1/8 NPT	€ 3,95

Important notes:

- Always use a filter before letting the fuel in the pump
- Make sure that the injection pumps are mounted below the fuel level

OUTLET connecting suggestions for QP 580 909 and QP 580 404

1.

Using the original bolt

2.

Using the 90 degree banjo connection with 8mm pillar.

*Required items: QPNIP INJ

See page 118

3.

Using a push-on fitting (straight or bended).

*Required items for 8mm outlet:

QG816-06-M12 + Push-on fitting QG536-***6

*Required items for 10mm outlet:

QG816-08-M12 + Push-on fitting QG536-***8

See page 86 and 66

4.

Using a straight metric hose pillar.

*Required items for 8mm outlet:

QG750-M12-08

*Required items for 10mm outlet:

QG750-M12-10

*Required items for 12mm outlet:

QG750-M12-12

See page 95

5.

Using a hose-end fitting (straight or bended) in the better-cutter series, classic series, black series or silver series.

*Required items for 8mm outlet:

QG816-06-M12+Hose-end fitting QC****6 (D06)

*Required items for 10mm outlet:

QG816-08-M12+Hose-end fitting QC****8 (D08)

Adapter + Cutter style fitting, see page 86 and 57

Adapter + non cutter fittings, see page 86 and 58

Adapter + PTFE fittings, see page 86 and 68

INLET connecting suggestions for QP 580 404

1.

* Inlet connections with hose pillar:

- 8mm pillar = QG750-M14-08 (D06 hose)

- 10mm pillar = QG750-M14-10 (D08 hose)

- 12mm pillar = QG750-M14-12 (D10 hose)

- 15mm pillar = QG750-M14-15 (D12 hose)

See page 95

2.

* Inlet connections with Hose-end fittings using a hose-end fitting (straight or bended) in the better-cutter series, classic series, black series or silver series.

Required items for 10mm inlet:

QG816-08-M14 + Hose-end fitting QC****8 (D08)

Adapter + Cutter style fitting, see page 86 and 57

Adapter + non cutter fittings, see page 86 and 58

Fuel products

Alloy Fuel Pump Brackets

Light and strong fuel or filter bracket, made from aluminum. Provided with a rubber sleeve inside for optimal protection and less vibration. The bracket can be easily installed by mounting it on the floor panel, or side. Diameter 60mm.

Part No.	Description	Price
QG 00702-S	Single bracket - silver	€ 33,90
QGZ 00702-S	Single bracket - black	€ 33,90
QG 00702-D	Double bracket - silver	€ 57,70
QGZ 00702-D	Double bracket - black	€ 57,70

Fuel Rail Linkage for Injection Pumps

The best solution to link two injection pump to in one system, 76mm centres. The complete kit contains 2 double banjo fuel rails, and 2 banjobolts, but all parts can/ must be ordered seperately.

Part No.	Description	Color	Price
QG01001-0601	Outlet rail - Ø 12mm + Female D06	Blue	€ 62,55

EFI High Flow Pressure Regulator

 High flow brandstofdruk regelaar voor het regelen van de brandstofdruk. Voorzien van vacuümaansluiting. Geschikt voor alle brandstoffen. Bereik: 2.75 – 5.2 BAR (40-75 PSI)

 High flow billet EFI regulator for medium and high horsepower applications. Compatible with all fuels. Fuel pressure rises on a 1:1 ratio with boost. Pressure range: 2.75 – 5.2 BAR (40-75 PSI).

Part No.	Inlet	Outlet	Gauge conn.	Description	Price

Fuel Pressure Regulator 1600cc

Fuel Pressure Regulator >1600cc

 Brandstofdruk regelaar incl. meter voor motoren tot 1600cc. Tot 6 BAR instelbaar.

 Fuelpressure regulator, including meter, for engines till 1600cc. Regulated till 6 BAR.

 Benzindruckregler, für Motoren bis 1600 cc. Bis 6 bar einstellbar.

Connection: 2x 1/8 NPT female

2x Adapters 8mm male + 2x D06 are included

QF FUEL 1: € 109,00

 Brandstofdruk regelaar incl. meter voor motoren vanaf 1600cc. Tot 8 BAR instelbaar.

 Fuelpressure regulator, including meter, for engines from +1600cc. Regulated till 8 BAR.

 Benzindruckregler, für Motoren ab 1600 cc. Bis 8 bar einstellbar.

Connection: 2x 1/8 NPT female

2x Adapters 8mm male + 2x D06 are included

QF FUEL 2: € 123,00

Fuel products

NEW!

Low Pressure Fuel Regulator - High Flow

 High flow brandstofdruk regelaar voor lage druk doeleinden. Instelbaar via inbus aan de bovenkant. Instelbereik: 5~12 Psi / 0.3~0.8 BAR. Inclusief bevestigingsbeugel. Geschikt voor alle brandstoffen.

 Low pressure fuel regulator for maximum flow. Pressure range 5 to 12 PSI / 0.3~0.8 BAR. Includes mounting bracket. Suitable for all fuels.

 Einstellbarer Druckregler für carburettors. Einstellbar von 5 bis 12 PSI / 0.3~0.8 BAR. Inklusive Montagehalterung. Geeignet für alle Kraftstoffe.

INLET: 2x D06 | OUTLET: 1x D06

QF FUEL 44: € 138,50

Low Pressure Fuel Regulator

 Brandstofdruk regelaar voor lage druk doeleinden. Instelbaar via draaiknop, aansluiting 2x 8mm pilaar. Bereik: 1~5 Psi / 0,07~0,35 BAR

 Low pressure fuel regulator. Adjustable through chromed ring. Connection: 2x 8mm hose joiners. 1 to 5 Psi adjustment / 0,07~0,35 BAR.

 Einstellbarer Druckregler, verchromt, ohne Werkzeug verstellbar, für Vergasermotoren. Einstellbar von 1 bis 5 Psi / 0,07 bis 0,35 BAR.

2x 8mm connections included.

QF FUEL 3: € 42,00

Pressure Gauge*

 Drukmeter, 1~7 BAR / 0~100psi. 1/8 NPT aansluiting.

 Pressure gauge, 1~7 BAR / 0~100psi. 1/8 NPT male connection.

 Kraftstoffdruck Meter, 1~7 BAR / 0~100psi. 1/8 NPT anschluss.

***Always remove the pressure gauge after installing.
Never drive with the pressure gauge installed!**

QF FPG07: € 21,50

Fuel products

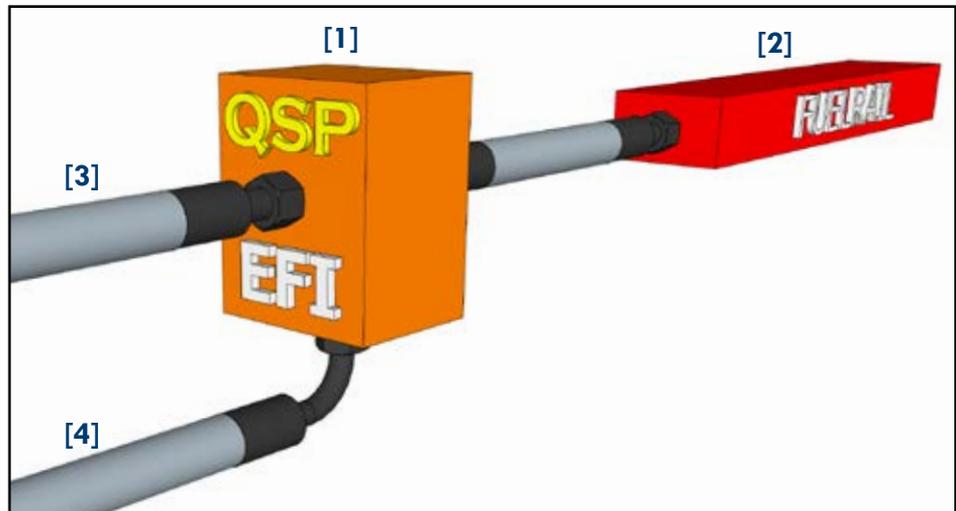

How to install your fuel pressure regulator

[1] Fuel pressure regulator [2] Fuel rail [3] Feed line from fuel pump [4] Return back to fuel tank

Option 1

De brandstofdruk regelaar [1] wordt vóór de fuel rail [2] geplaatst in de gevallen dat er geen retour op de fuelrail zit. De retourleiding [4] stroomt terug naar de tank.

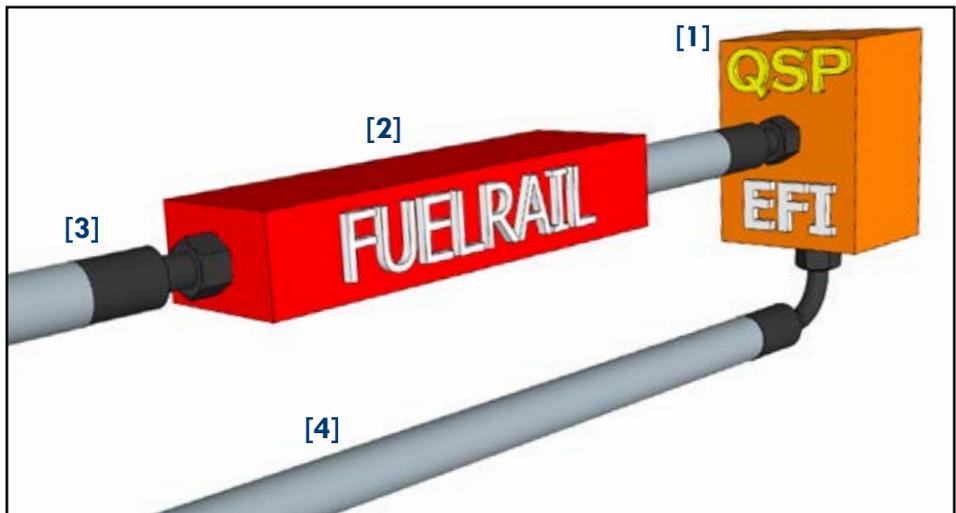

The fuel pressure regulator [1] will be placed before the fuel rail [2] when there is no return on the fuel rail. The return [4] will go to the main fuel tank or catchtank.

Option 2

In de meeste gevallen zult u deze situatie hebben. De brandstofdruk regelaar [1] zit ná de fuel rail gemonteerd [2]. De retourleiding [4] stroomt terug naar de (catch)tank.

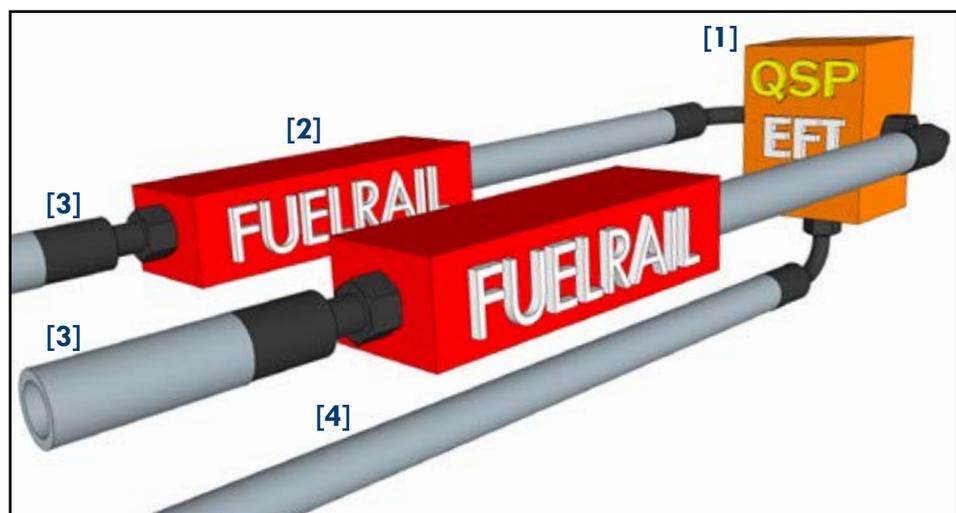

In most situations you will have this setup. The fuel pressure regulator [1] will be mounted after the fuel rail [2]. The return line [4] will go to the main fuel tank or catchtank.

Option 3

Deze optie is geschikt voor V8 motoren met een dubbele fuel rail [2]. De brandstofdruk regelaar [1] regelt de druk in beide fuel rails door deze achteraan te plaatsen. De retourleiding [4] stroomt terug naar de (catch)tank.

This option is the optimum solution for performance V8 engines with dual fuel rails [2]. The fuel pressure regulator [1] will be placed after the fuel rails, keeping the pressure on the rails. The return line [4] will go to the main fuel tank or catchtank.

Fuel products

Fuel filler hose

Part No.	Description	Price per 0,5 Meter
QHFill-50	Fuel filler hose 50 mm transparent - 0,5M	€ 14,50
QHFill-50 Black	Fuel filler hose 50 mm black - 0,5M	€ 29,50
QHFill-57	Fuel filler hose 57 mm transparent - 0,5M	€ 15,50
QHFill-57 Black	Fuel filler hose 57 mm black - 0,5M	€ 32,50

Gauge adapters

 **Brandstofdruk adapter is gemaakt uit massief aluminium.**

De drukadapter wordt tussen de brandstofleidingen geplaatst. D.m.v het monteren van een drukmeter kan de druk worden afgelezen. Slangklemmen worden meegeleverd.

Leverbaar met 8mm en 10mm slangpilaren.

Kleuren: zilver, zwart.

Aansluiting meter: 1/8 NPT

De meter dient optioneel besteld te worden.

 **Billet aluminum fuel pressure adaptor.**

To be fitted between the fuel hoses. By mounting a pressure gauge you can see the fuel pressure in the system. Hose clamps are supplied with the adaptor!

Available with 8mm and 10mm hose pillars.

Colors: silver, black.

Gauge connection: 1/8 NPT

Pressure gauge must be ordered optionally.

Oil solutions

Self priming gear pump

Self-priming compact electric gear pump with helical bronze gears for transferring lubricating oils and viscous liquids. Nickel-plated brass body and stainless steel shaft. Suitable for transmission or differential cooling and turbo oiling applications. For adapters, see page 85 for AN-BSP adapters.

Technical specifications:

FKM Seal | IP67
12V - Fuse size 7.5A

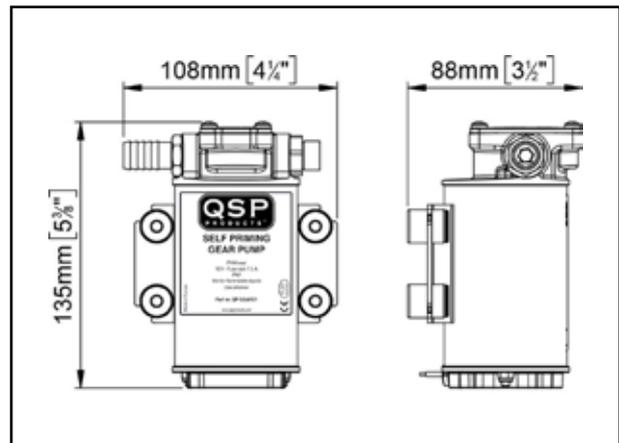

Flow rate at 25°C with SAE-30 oil:
Ø13mm = 330 l/h | Ø8mm = 60 l/h

Self priming* 1M - 3.3 ft
* Gears must be wet

Ports: 3/8" BSP
Weight: 1.4kg
Dimensions: H 136 x L 108 x W 88mm
Motor power: 90 W

Not for flammable liquids
Always use strainer

QP GEAR01: € 139,00

Gear pump oil filter

Billet aluminum in-line oil filter, suitable to use on QP GEAR01. Supplied with 2x D08 (AN8) female connections.

Length: 110mm
Width: 50mm.

For adapters, see page 87 with AN-AN O-ring adapters.

Electronic Fan Controllers

- Easy fitment to control the cooling fan
- Direct and rapid response to water temperature
- Various temperature range
- All controllers supplied with hose clamps, relay, cable ties and wires.

Billet aluminum hose adapter

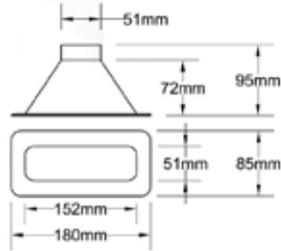

-  Aluminium slang adapter, geschikt om tussen een slang te plaatsen. Aansluiting voor sensor 1/8 NPT. Wordt geleverd incl. 2 slangklemmen.
-  Alloy hose adapter for heat indicator. Comes with 2 SS hoseclamps. Connection: 1/8 NPT.
-  Aluminium T-Adaptor. Wird geliefert inkl. zwei Klemme. Anschluß 1/8 NPT.

Alloy tape

 40 Micron aluminium folie tape, met acryl hechting. Maximale temperatuur is 120°C.

 40 micron Aluminum foil tape, fitted with pressure sensitive acrylic adhesive. Tape meets class 1 fire precautions, and can bear 120°C.

 40 Mikron Aluminium Folienband, mit Druck versehen Acrykleber. Band entspricht der Klasse 1 Brandschutzmassnahmen. Temperatur maximal 120°C.

50M x 50mm
QTAPE 2: € 17,50

Heatshield tape gold

 Deze hitte werende tape is een gemetalliseerde polyamidepolymeer gelaagde glasdoek. De tape is lichtgewicht en eenvoudig aan te brengen en te verwijderen. Perfect toe te passen op brandschotten, motorkappen, bodems, brandstoftanken etc. Geschikt tot 450°C graden Celcius directe hitte en 1500°C stralings warmte.

 Heat reflective tape gold is a metalized polyamide polymer laminated glass cloth. The reinforced tape is easy to trim and apply. Can be used on firewalls, fuel tanks, engine covers, floors, seat bottoms etc. Suitable for 450°C direct heat and 1500°C radiant heat.

10Mx50mm
QTAPE GOLD: € 36,00

Adhesive heatmat tape

 Zelfklevende aluminium hittetape, tot 550°C. Stoot 90% van de hitte af.

 Aluminum glass cloth mat, fitted with pressure sensitive acrylic adhesive. Till 550°C, reflects 90% of radiant heat.

 Selbstklebendes Hitzeschutzband, bis 550°C, und reflektiert 90% Strahlungshitze.

10M x 50mm
QTAPE 4: € 27,50

Heat protection

Heat Reflective Mat

Versions: non-adhesive and self-adhesive

-  Hittewerende mat met aluminium coating. Stoot 90% van de hitte af, maximum tot 550°C.
-  Aluminised glass cloth mat, suitable up to 550°C, reflects 90% of radiant heat.
-  Alubeschichtete Hitzematte, sehr flexibel, bis 550°C, und reflektiert 90% Strahlungshitze.

Aluminized Fiberglass Sleeve

-  Deze sleeve is ontworpen om leidingen/slangen af te schermen van hittebronnen, ook veilig te gebruiken in zware omstandigheden. Maximale langdurige werktemperatuur: 950°C.
-  This sleeve is designed to reduce and dissipate heat and works great for areas where harsh environments exist that require heat shield insulation. constant max: 950°C.
-  Hitzeisolierender Schlauch aus Silikonbeschichtetem dickem Fiberglasgewebe. Temperaturbereich bis 950°C.

Part No.	Description	Price
QALLOY 10	1m x 10mm	€ 10,50
QALLOY 15	1m x 15mm	€ 12,10
QALLOY 20	1m x 20mm	€ 15,20

Thermal Silica Sleeve

-  Thermische hoes, weerstaat 980°C constant en max 1350°C kortstondig. gebruikt voor bescherming van draden, brandstof leidingen, accu kabels etc.
-  High temperature resistant thermal sleeve to protect wires, fuel lines, brake lines, battery cables, EGR tubes and more. Capable of withstanding 980°C and max 1350°C for short period.
-  Hitzeschlauche von fiberglasgewebe, ideal zur Isolierung von Leitungen, Kabel, Kraftstoff schlauche, Bremse schlauche etc. Temperaturbereich ist 980°C und kurzfristig bis 1350°C

Part No.	Description	Price

Heat protection

Turbo Blanket

 Turbo isolatie, voor ultieme isolatie van uw turbo. Houdt de temperatuur onder de kap in bedwang, koelere inlaatlucht betekend méér vermogen.

 Turbo blanket, for optimal isolation from heat of the turbo. Turbo shield can reduce underhood temperatures, cooler intake air means more horsepower.

 Turbo-Hitzeschutz, für eine optimale reduzierung der Wärmeabstrahlung. Reduziert Temperatur im Motorraum, sowie eine verbesserung des Leistungsverhaltens des Turbos.

Part No.	Description	Price
QTURBO T3	T3 Turbo	€ 79,00
QTURBO T4	T4 Turbo	€ 85,00
QTURBO T6	T5 Turbo	€ 98,00

Silicone repair tape

 Silicone tape, zelf vulkaniserend, water- en hitte bestendig. Veelal gebruikt in automotive, maritieme en industriële toepassingen. Ideaal te gebruiken voor elektrische bedrading, bescherming van slangen etc. Max temperatuur 260°C.

 The special formulation of this silicon tape self-fuses when stretched and over-wrapped. Completely flexible at cold temperatures and can be used to 260°C continuous exposure.

 Silikonband, selbst vulkanisierend, wasser- und hitzebeständig. Meist in Automobil-, maritimen und industriellen Anwendungen. Ideal für die elektrische Verkabelung, den Schutz von Schläuchen usw. Max. Temperatur 260°C

High Quality

There is a big difference in product quality like terminals and connectors which you find everywhere. All our items are made from the best materials in the market for the application. Terminals and connectors are electro tin plated and provided with a reinforcement shell for the best possible way to clamp the cable.

Solid and Smart Package

The items are packed in a strong plastic blister, which has a hang-function to place it in your shop as well! There is no need to order 100 or 500 pieces in once as you normally do at your current supplier. We keep the quantities small and useful.

Self Extinguishing

All our fuses which are according DIN, JASO and ISO certifications are self extinguishing, which makes them perfect to use in all sectors.

Different Markets

During the fact that most products are tested and approved with DIN, JASO, SAE and ISO certifications, they are applicable in different markets like automotive, industrial, offshore and agriculture.

Fuses

Norm plug-in blade fuse

According to international technical specifications.
According DIN 72581-3, SAE J1284, ISO 8820-3.
Robust attachment of the contact pins in the casing.
5,2mm wide blades.

Fuses

Circuit Breaker - Panel mounted

Single pole thermal circuit breaker with press-to-reset, tease-free, trip-free, snap action mechanism. Equipped with threadneck panel mounting. The circuit can be interrupted by push-push action.

Perfectly applicable on motors, cars, transformers, solenoids, battery chargers, power supplies, appliances, machinery, extra low voltage systems.

Part No.	Amp.	Price
QE1-05	5A	€ 27,95
QE1-10	10A	€ 27,95

Circuit Breaker - Panel mounted

Single pole, miniaturised, aircraft style thermal circuit breaker with tease-free, trip-free, snap action mechanism and push/pull on/off manual actuation. An indicator band on the push button clearly shows the tripped/off position. Threadneck panel mounted. Temperature compensated from -55° to +125 °C, with optional auxiliary contacts, and fully approved for use on a wide range of aircraft and equipment.

Perfectly applicable on motors, cars, transformers, aerospace, solenoids, battery chargers, power supplies, appliances, machinery, extra low voltage systems.

Interrupting capacity (UL 1077)	I _N	U _N	
	0,05...20A	AC 250V	2.000A
	0,05...25A	DC 50V	2.500A
	(Higher values upon request)		
Degree of protection (IEC 60529 / DIN 40050)	Operating area IP40		
	Terminal area IP00		
Vibration	8g (57-500Hz) ± 0.61mm (10-57Hz) to IEC 60068-2-6, Test Fc, 10 Frequency cycles/axis		
Shock	25g (11ms) to IEC 60068-2-27, test Ea		
Corrosion	96 hours at 5% salt mist to IEC 60068-2-11, test Ka		
Humidity	240 hours at 95% RH to IEC 60068-2-78, test Cab		
Mass	Approx. 29g		

Technical data QE-3-**

Weight reduction trough aluminum treadneck: approx. 3g

Voltage rating	AC 115V (300Hz to 800Hz); DC 28V (higher voltage ratings upon request)		
Current rating range	1...35A		
Typical life	20.000 operations mechanical		
	10.000 operations at I _N (≤25A)		
	5.000 operations at I _N (30+35A)		
Ambient temperature	-55...+125 °C (-67...+257 °F)		
Insulation co-ordination (IEC 60664 and 60664A)	Rated impulse	Pollution	
	Withstand voltage	Degree	
	1.5 kV	3	
Dielectric strength (IEC 60664 and 60664A) operating area	Test voltage	AC 1.500 V	
	main to aux. circuit	AC 1.500 V	
Insulation resistance	>100MΩ (DC 500V)		
Interrupting capacity I _{CN}	AC 115V (400Hz):	5A	2.000A
		7.5...35A	2.500A
	DC 28V:	1...25A	6.000A
		30 + 35A	4.000A
Degree of protection (IEC 60529 / DIN 40050)	Operating area IP40		
	Terminal area IP00		
Vibration (sinusoidal)	15g (70-2000Hz) ± 0.76mm (5-70Hz) to VG 95210, sheet 19, IEC 60068-2-6, test Fc/ISO 7137		
Vibration (random)	16,5g rms, 0,2 g ² /Hz ± 1.5dB to VG 95210, sheet 29, ISO 7137		
Acceleration	17g, to ISO 2669		
Shock	75g (11ms) to VG 95210, sheet 28, IEC 60068-2-27, test Ea/ISO 7137		
Corrosion	96 hours at 5% salt mist, severity A 48 hours at 20% salt mist, severity B to VG 95210, sheet 2, IEC 60068-2-11, test Ka/ISO 7137		
Humidity	240 hours at 95% RH to VG 95210, sheet 7 to IEC 60068-2-78, test C/ISO 7137		
Explosion	to VG 95210, sheet 10 MIL-STD-202, meth. 109		
Altitude	≤25.000m above sea level		
Mass	Max. 29g with auxiliary contact		
	Max. 25g without auxiliary contact		

Fuses

High-amp circuit breaker

Waterproof (Meet IP67), surface mount.

Voltage: 42 VDC Maximum | Interrupt Rating 3000A @ 30VDC

Operating temperature: -32°C ~ 82°C | Housing: Thermoset plastic, UL rated 94VO

Standard testing: SAE J1625 ; SAE J1171 (ignition protected)

professional way with the flexible
woven sleeves

Cable protection

Protective sleeve

 Gevlochten beschermkous in diverse diameters. Wordt geleverd in een handige dispenser! De gevlochten beschermingskous behoort tot de favorieten op het gebied van kabelbescherming. Deze gevlochten beschermkous is een zeer duurzame en slijtvaste oplossing voor het bundelen van kabels en leidingen.

 This woven protection sleeve is one of the most used cable protection. It offers durable abrasion resistance in a wide range of automotive and industrial applications. The open weave construction allows an easy installation on a bundle of hoses or cables. Totally expanded the sleeve can reach at least one point five times than the initial dimension

Application:

Ideal for application in wire harness, automatic equipment, railway, general manufacturing industry where wire and cable are required to has a tough and durable protection.

Technical data:

Material: Polyester
Operating range: -50°C - +150°C
Melt temperature: 250°C
Flammability: VW-1
Certificate: UL, CSA, RoHS, PFOS, REACH, Halogen Free

Part No.	Description	Size	Price
QC3558	Flame-retardant woven protection sleeve - 10M in box	3-9mm ²	€ 9,60
QC3560	Flame-retardant woven protection sleeve - 10M in box	7-19mm ²	€ 10,50
QC3561	Flame-retardant woven protection sleeve - 8M in box	9-26mm ²	€ 12,75
QC3563	Flame-retardant woven protection sleeve - 8M in box	14-30mm ²	€ 14,50
QC3565	Flame-retardant woven protection sleeve - 5M in box	20-50mm ²	€ 15,21

Cable protection

Shrink sleeve

Specifications:

Material	Polyolefin, hot-melt adhesive
Shrink ratio:	3:1
Operating temp.	-55C - +125C
Flammability:	VW-1
UL, RoHS and REACH compliant.	

 Dubbelwandige krimpousen in een handige afrol verpakking. Veelal toegepast op kabels, stekkers en connectoren.

 Dual wall shrink sleeves, in a handy roll-off box. This tubing may be used in a wide variety of electrical applications, such as back end connector sealing, breakouts and connector-to-cable transitions.

Part No.	Description	Ø Bore	Price
QC3889	Heat shrink dual wall tubing 3:1, 10M in box	3,2 - 1,1mm	€ 11,00
QC3891	Heat shrink dual wall tubing 3:1, 5M in box	6,4 - 2,1mm	€ 13,00
QC3893	Heat shrink dual wall tubing 3:1, 5M in box	9,5 - 3,2mm	€ 13,75
QC3895	Heat shrink dual wall tubing 3:1, 5M in box	12,7 - 4,2mm	€ 16,50
QC3896	Heat shrink dual wall tubing 3:1, 4M in box	19,1 - 6,0mm	€ 17,25
QC3897	Heat shrink dual wall tubing 3:1, 3M in box	25,4 - 8,5mm	€ 17,65

 **Werk efficiënt, snel, overzichtelijk en netjes met behulp van deze stalen houder!**

Deze dispenser houder is gemaakt van staal en geschikt voor de gevlochten beschermkousen en de krimpousen artikelen. Deze producten zitten namelijk in een handige afrol-verpakking. Voorzien van 4 voorgeboorde gaten voor eenvoudige installatie.

 This steel dispenser holder allows you to work efficient, quick and neat. You can install all sizes from expandable woven sleeves and the shrink tubing.

260x310x180mm
QCHOLDER: € 35,10

Cable protection

Aluminum / glassfiber tube

 Flexibele isolatiebuis gemaakt van glasvezel en aluminium. De buitenste laag is aluminium, de tussenlaag is glasvezel, en de binnenlaag is van aluminium. Bestand tegen water er oliën.

Toepassing:

Isolatie en bescherming van kabels, ventilatie leidingen, brandstofleidingen, airco leidingen en meer.

Door de hoge temperatuurbereik van -40°C tot 250°C kunnen deze flexibele aluminium buizen in diverse applicaties worden toegepast.

 This flexible insulation tube is made from aluminum and fiberglass. The outer layer is aluminum for a good reflection of heat, middle layer fiberglass and inside layer aluminum. Temperature range: -40°C to 250°C . Resistant to water, oils, fluctuation of temperatures.

Application:

Insulation and protection of cables, wiring loom, air conditioning and cooling pipes, fuel hoses and many more.

Part No.	Description	Ø Bore	Price
QC3900-10	Alloy foil corrugated tube - 2.5M on roll	10mm	€ 8,30

QC3900-40	Alloy foil corrugated tube - 2.5M on roll	40mm	€ 14,65

Ribsleeve

 Vlam vertragende flexibele ribbelslang. Met deze ingesneden versie van de ribbelslang kunt u deze snel een eenvoudig over bestaande kabels monteren. Corrosie en chemisch bestendig. Werktemperatuur van -40°C tot 135° .

 Flame-retardant flexible corrugated tube slit. Pre-slit tubing for quick and easy installation on new or preexisting cables. Excellent electrical and physical properties, including excellent acid fastness, corrosion resistance and a working temperature from -40°C up to 135° . Resistant to oil, fuel and grease.

Cable protection

Spirap

🇳🇱 Spirap, perfect om kabels te bundelen en alles netjes overzichtelijk te houden. De spirap heeft de eigenschap dat deze uitermate flexibel, halogeenvrij en slijtvast is. Tevens komen er geen dioxine vrij bij ontbranding. Werktemperatuur -30°C - +100°C

🇬🇧 "Spirap, used in many applications, covering and protecting wiring and cables from rubbing on bodywork, can also be used to tidy up oil and brake lines. Keeps engine bays and cockpits neat and tidy. The spirap is a halogen-free polyolefin sleeve. It is low smoke generating, abrasion resistant and in case of burning products no dioxin. Operating temperature -30°C - +100°C"

Checkbox

STOP PIERCING INTO WIRES!

The best way to measure electric signals without damaging cables, wires, terminals or connectors.

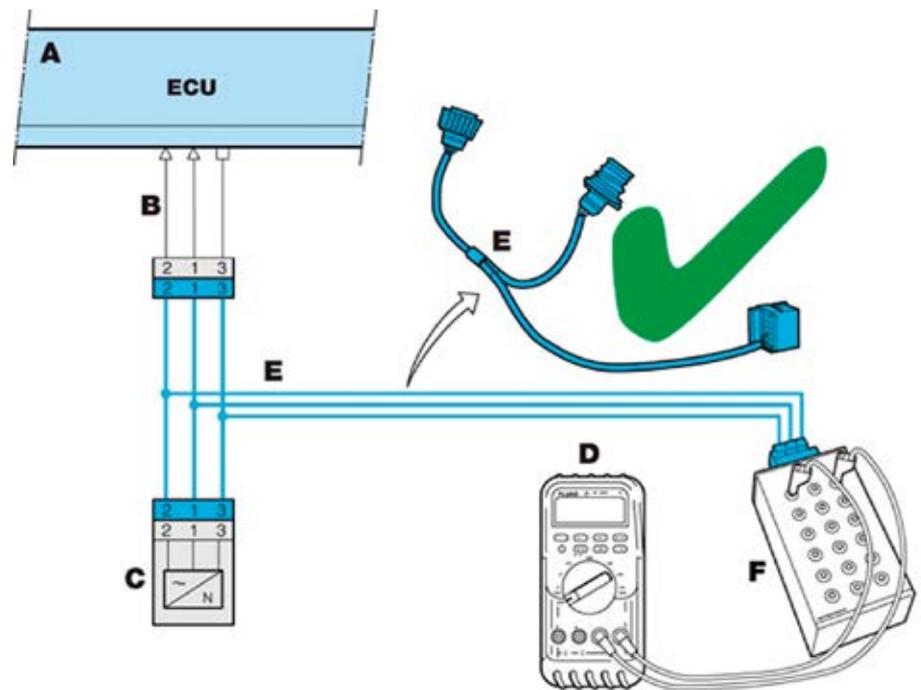

Suitable for dealers and workshops in the field of cars, agricultural, marine, industrial machinery and automatic gearboxes

Checkbox

How does it work?

The Y-cable is a cable between the sensor (C) and the wiring harness connector (B). It's a sort of extension cable but with a parallel connection to the breakout box (F). You can now measure the signals with a multi meter (D) or scope in a safe way without damaging the wires or connector of the sensor or actuator. During measuring the sensor (C) is still connected and "live" so you can measure with a full operational motor management system in progress (A).

 U kent het wel; prikken in kabels of langs een afdichting van een connector om een signaal te meten. Dit is vanaf nu vele malen eenvoudiger en betrouwbaarder geworden door middel van de QSP Products Checkbox! De Checkbox werkt i.c.m. de zogenaamde "Y-kabel". Deze kabel plaats je tussen de sensor en de connector in. Het meten gebeurt vervolgens in de Checkbox zélf d.m.v. het insteken van de meetpennen. Er is een scala aan kabels en connectors te bestellen. Ook hebben we diverse sets samengesteld, zoals de starter-kit, universele set voor 2 & 3-pins stekkers en een universele set voor 4 t/m 14-pins connectoren. Naast deze universele sets zijn er ook merkgerichte sets, met de meest voorkomende connectoren voor het betreffende voertuig. O.a. sets voor Volkswagen, Toyota, John Deere, Tesla, PSA groep, Deutz, Caterpillar, Opel en Yanmar zijn leverbaar.

 It's no longer needed to punch a hole in your electrical wiring loom! With this Checkbox and matching Y-cables you can easily connect the right connectors onto your electrical system and measure the signal in the Checkbox with a multi-meter or scope. There is a whole bunch of cables and connectors available. To make this more clear for you we created universal starter kits with the most common cables for your use as well. Besides of the universal sets there are also special kits for specific brands, like Volkswagen, Toyota, John Deere, PSA group, Deutz, Caterpillar, Opel/Vauxhall, Yanmar and more!

Professionally produced Y-cables

Applicable for automotive, industrial,
offshore and agriculture

Checkbox Y-cables*

Y-Cables

In contrast to the separate connectors we also deliver the complete Y-cable, to be clicked directly in the matching connectors from your vehicle or machine and in the Checkbox self.

The Y-cables are always delivered completely assembled. There are also special Y-cables where you can mount your own connector on.

Separate Y-Cables

Part No.	Description	Price
QCB-Y1-0000	1 pin y-cable without connectors	€ 27,00
QCB-Y2-0000	2 pin y-cable without connectors	€ 28,00
QCB-Y3-0000	3 pin y-cable without connectors	€ 28,50
QCB-Y4-0000	4 pin y-cable without connectors	€ 29,50
QCB-Y6-0000	6 pin y-cable without connectors	€ 30,50
QCB-Y8-0000	8 pin y-cable without connectors	€ 31,50
QCB-Y10-0000	10 pin y-cable without connectors	€ 32,50
QCB-Y12-0000	12 pin y-cable without connectors	€ 33,50

LED Rain Lights

Rain Light - Rectangle

 FIA en MSA gehomologeerd LED light, werkt op 12V.
Aantal LED's : 72 | Aansluiting: M5 bout
Afmeting: 106 x 65 x 17mm | Gewicht: 310g

 FIA and MSA homologated LED light, current: 12V.
Number of LED's : 72 | Connection: M5 bolt
Dimensions: 106 x 65 x 17mm | Weight: 310g

 Regen-Dioden-Rückleuchten mit FIA Zulassung, Anschluss 12V.
Menge: 72 Dioden | Befestigung: M5
Abm. 106 x 65 x 17mm | Gewicht: 310g

QLE RE: € 39,00

Rain Light - Square

 FIA en MSA gehomologeerd LED light 12V, Voldoet aan de autocross regels! Aantal LED's : 56, Aansluiting: M5 bout
Afmeting: 102 x 92 x 17mm | Gewicht: 280g

 FIA and MSA homologated LED light, current: 12V.
Number of LED's : 56 | Connection: M5 bolt
Dimensions: 102 x 92 x 17mm | Weight: 280g

 Regen-Dioden-Rückleuchten mit FIA Zulassung, Anschluss 12V, Menge: 56 Dioden | Befestigung: M5
Abm. 102 x 92 x 17mm | Gewicht: 280g

QLE SQ: € 35,00

Rain Light - Round

 FIA en MSA gehomologeerd LED light, 12V, Aantal LED's : 51
Aansluiting: M5 bout, Afmeting: 52,8 x 48,5 x 42,2 mm (rond)
Gewicht: 200g

 FIA and MSA homologated LED light, current: 12V.
Number of LED's : 51, Connection: M5 bolt
Dimensions: 52,8 x 48,5 x 42,2 mm (round), Weight: 200g

 Regen-Dioden-Rückleuchten mit FIA Zulassung, Anschluss 12V.
Menge: 51 Dioden, Befestigung: M5, Abm. 52,8 x 48,5 x 42,2mm
Gewicht: 200g

QLE RO: € 31,00

Light accessories

Brake Light

 Stoflamp / remlicht volgens KNAF eisen

 Brakelight / dustlight according to regulations

 Bremsleucht / Staubleucht nach Vorschriften

Dimension: 130x77x56mm

QLAMP 7: € 5,95

Brake Light Switches

 Remlichtschakelaar, banjobout M10x1.0 / M10x1.25 / 3/8-24UNF
Inclusief O-ringen en rubber seal voor optimale afdichting

Lengte bedrading: 30cm

 Brakelight switch banjobolt M10x1.0 & M10x1.25
Including O-rings and rubber seal for optimal closure

Wire length: 30cm

Q.BLBA-01 = M10x1.0

Q.BLBA-02 = M10x1.25

Q.BLBA-03 = 3/8-24UNF (=D03) **NEW!**

Price Q.BLBA-** = € 17,95

 Remlichtschakelaar, 1/8 NPT

 Brakelight switch 1/8 NPT

Q.BL01: € 17,95

Starter panels

QE6001

-  Startpaneel met hoofdstroom schakelaar en startknop. Incl. relais.
-  Starter panel with batteryswitch and a start button, ncluding relay and wiring.
-  Schalterpaneel inklusiv Kabelbaum, passend für alle Paneele.

QE6001: € 28,50

QE6001C

-  Startpaneel met hoofdstroom schakelaar en startknop. Incl. relais.
-  Starter panel with batteryswitch and a start button, ncluding relay and wiring.
-  Schalterpaneel inklusiv Kabelbaum, passend für alle Paneele.

QE6001C: € 30,50

QE6003

-  Startpaneel met startknop. Inclusief relais.
-  Starter panel with of/off toggle switch and starter button, including relay and wiring.
-  Schalterpaneel inklusiv Kabelbaum, passend für alle Paneele

QE6003: € 28,50

QE6005C

-  Startpaneel met hoofdstroom schakelaar, startknop en 3 schakelaars, incl. relais.
-  Starter panel with battery switch, start button and 3 switches, incl. relay and wiring
-  Schalterpaneel inklusiv Kabelbaum, passend für alle Paneele

QE6005C: € 42,50

Starter panels

QE6007

-  Startpaneel met hoofdstroom schakelaar, startknop en 2 schakelaars, incl. relais.
-  Starter panel with battery switch, start button and 2 switches, incl. relay and wiring.
-  Schalterpaneel inklusiv Kabelbaum, passend für alle Paneele

QE6007: € 37,25

All starter panels are supplied with relays and wiring kit!

QE6009

-  Startpaneel met startknop. Inclusief relais.
-  Starter panel with of/off toggle switch and starter button, including relay and wiring.
-  Schalterpaneel inklusiv Kabelbaum, passend für alle Paneele.

QE6009: € 26,50

QE6009C

-  Startpaneel carbonlook met startknop. Inclusief relais.
-  Starter panel with of/off toggle switch and starter button, including relay and wiring (carbonlook).
-  Schalterpaneel Carbon-look inklusiv Kabelbaum, passend für alle Paneele.

QE6009C: € 28,50

Aluminum tanks

Pro series

🇳🇱 Alle brandstoftanken zijn voorbereid met een niveaumetingspunt. Het kleine gat op de bovenzijde kan worden gedemonteerd waarna de zend-unit "QM FLS TUBE" gemonteerd kan worden. Deze zender functioneert alleen met de niveaumeter "QMO FL 0-90"

🇬🇧 All fuel cells are prepared to install a fuel level sending unit "QM FLS TUBE". This unit only works with the fuel level meter "QMO FL 0-90"

🇩🇪 Alle Brennstoffzellen sind bereit eine Kraftstoffstand Sendeeinheit "QM FLS TUBE" zu installieren. Dieses Gerät funktioniert nur mit der Kraftstoffpegelmesser "QMO FL 0-90".

-  Universele aluminium adapter ring, geschikt voor Formula quickrelease.
-  Universal aluminum adapter ring, suitable for Formula quickrelease.
-  Aluminium adapter ring, passend für Formula schnellverschlüss.

QS QRING: € 21,50

Steering wheel hubs

Stuurnaven

Met de montage van deze stuurnaven heeft u 1 cm een vlak stuur dezelfde afstand als het originele stuur. U kunt dus met de diepte van het stuur en/of eventuele spacers de gewenste afstand bepalen. Auto types kunnen variëren per land. Mocht u twijfelen neem dan eerst contact op voordat u besteld.

Steering Wheel Hubs

These steering wheel hubs have been designed to maintain the original steering wheel position, together with a flat steering wheel. You can adjust the position of the wheel by having a dished steering wheel with or without a steering wheel spacer. Car models can vary per country. In case of doubt aks before ordering.

Lenkradnaben

Diese Lenkradnaben sind entwickelt um die Original Position zu halten, zusammen mit einem flachen Lenkrad. Die Position des Rades können sie anders bei ein geschüsseltes Lenkrad von 70mm oder 90mm, mit oder ohne ein Lenkradverlängerung. Modelländerungen können pro Land unterschiedlich sein. Im Zweifelsfall fragen Sie uns zuerst vor der Bestellung.

Hoodpins

Fast latches

Nieuwe snelsluiting, leverbaar in aluminium en RVS!

Deze zeer sterke snelsluitingen zijn perfect te gebruiken voor uw motorkap, achterklep, bumpers, body panelen, kappen en kleppen.

Dit product wordt geleverd met moeren en revetten.

Hoe werkt het?

Dit product sluit zich door de RVS pen in het mechanisme te drukken. De sluiting maakt u weer open door op de centrale knop te drukken. Eenvoudiger kan het niet!

New 'Fast Latches', available in aluminum and SS!

These very strong latches are perfect to use on bonnets, trunks, body panels, bumpers, truck panels and more.

The product is supplied with washers and nuts.

How does it work?

You can lock the latch by inserting the stainless pin into the fixation head. The system will be locked with a single press. To open, just push the central button on the top, and the parts will separate.

Air Filter Wrap

DE Deze luchtfilter hoest beschermt uw filter tegen (fijn)stof en zand. Dit voor-filter houdt het meeste vuil uit het filter waardoor de servicebeurt van uw luchtfilter uitgesteld kan worden. Ideaal voor off-road en autocross toepassingen.

UK This pre-filter is designed to extend the service interval of your air filter when used in very dusty conditions. This air filter wrap will stop dirt particles with minimal restrictions to the airflow of the filter.

Part No.	Cone size	Length	Price
QAIR-M01	120 / 100mm	140mm	€ 19,00
QAIR-M02	150 / 100mm	172mm	€ 21,00
QAIR-M03	160 / 100mm	127mm	€ 22,50

QAIR-M05	190 / 140mm	470mm	€ 25,00

NEW!

Turbo Guards

DE Deze turbo guard wordt direct op de inlaatkant van de turbo gezet. Ideaal voor auto's die geen plaats hebben om een luchtfilter te monteren. Door midden van deze turbo guard wordt al het vuil tegen gehouden door de RVS rasterwerk. T-Bolt slangklem wordt meegeleverd. Leverbaar in 76mm en 102mm.

UK This turbo guard goes onto the inlet side of the turbo. Perfect to use on cars which don't have any space left to mount an air filter. T-bolt hose clamp is supplied with every turbo guard. Available in 76mm (3") and 102mm (4").

Part No.	Diameter	Price
QTG76	76mm	€ 22,50
QTG102	102mm	€ 22,50

Grippaz

Nieuw in het assortiment: Grippaz werkplaats handschoenen!

De prijs is voor 50 stuks werkplaatshandschoenen, verpakt in een handige dispenser. Verkrijgbaar in de kleuren zwart en oranje. De handschoenen hebben een speciale samengestelde organische formule die er voor zorgt dat de handschoenen een bijzonder hoge scheurweerstand hebben en duurzamer zijn in olieachtige omgevingen.

De voordelen op een rij:

- Tweezijdig draagbaar (kostenbesparend)
- 100% nitril, dus latex allergie uitgesloten
- Hoge vingergevoeligheid
- Veel grip (nat & droog) door visgraad structuur
- 100% chemisch bestendig
- Uitstekende pasvorm door stretch formule
- Ideaal voor auto-industrie, automotive, monteurs, land- en tuinbouw
- Niet gepoederde handschoen, dikte: 0,15 mm (6 mil), lengte: 24 cm, AQL 1,5 (EN 374)

New available: Grippaz working gloves.

The price contains 50 pieces of gloves, packed in a dispenser. Available in the colors black and orange. The gloves have a special organic compound formula which ensures that the gloves have a high tear resistance and are more durable in oily environments. Niet gepoederde handschoen, dikte: 0,15 mm (6 mil), lengte: 24 cm, AQL 1,5 (EN 374)

The benefits:

- Two-sided wearable
- 100% nitril, so latex allergy is excluded
- High finger sensitivity
- Many grip (wet and dry) by the fishbone structure
- 100% chemically resistant
- Excellent fitment with the stretch formula
- Ideal for automotive, mechanics, agriculture
- Not powdered glove, thickness: 0,15 mm (6 mil), length: 24 cm, AQL 1,5 (EN 374)
